Rauld Strides of Science

It is said that people in the West ple sugar that they will reject the genuine article with disdain if they happen to come across it. A Western firm that manufactures an imitation article endeavors to give it something of the genuine flavor by boiling a piece of maple wood in it. Some scientists, however, say that the peculiar flavor of maple sugar is due to the presence of impurities in the sap, and that if these impurities could be eliminated the sugar would taste ex-actly like pure loaf sugar. Thus gradually is science taking all the old time flavor out of life. Pretty soon it will be giving us an improved buckwheat fleur, with no more taste than a piece of chalk.

Australian Shrubbery.

With the exception of a living carpet of delicate maidenhair, which attains a height of from five to six feet, and of ropes of creeper ferns which swing from tree to tree like fairies in the castle of a giant, the forest of Australia is altogether bare of undergrowth. In the woods of recent growth, however, vegetation is more luxuriant. The long tendrils of the clematis and rata connect trunk with trunk in garlands of white and scarlet bloom, and at their base flourishes an infinite variety of ferns, while here and there a graceful tree-fern rears its silvery-lined crown.

Now in Session at Portland Oregon.

TUPSDAY—The committee report on the sixteenth amendment to the Federal Constitution was presented. The text of the amendment is slightly altered in order to meet a special objection. The proposed amendment is as follows:

Neither Congress nor any State shall pass any law respecting any establishment of religion, or prohibiting the free exercise thereof, or use its property and credit or any money raised by taxation, or authorize either to be used, for the purpose of founding, maintaining or adding by appropriation, payment for services, expenses or otherwise, any church, religious denomination, religious seciety, or any institution, soriety or undertaking which is sholly or in part under sectarian or ecclesiastical countrol.

The report of the standing Committee or Home Missions was read by Dr. McPherson of Chicago. The board began the year with a debt of nearly \$190,000. One million dol lars were asked for last year, and contributions reached within \$70,000 of that amount of which over \$43,000 were available. The present debt is \$67,000.

of which over \$83,000 were available. The present debt is \$67,000.

Wednesday.—The Assembly considered foreign missions to-day. The report was presented by Dr. Allison, of Philadelphia. The year's work was reviewed and appropriate resolutions were introduced looking toward futberance of the board's efforts. The principal facts are as follows: The Board of Foreign Missions last year asked for \$1.000,000 and made its appropriation on the basis of \$1.000,000. The receipts amounted to over \$630,000,000. The board maintains 210 ordained American missionaries; 165 ordained and 255 licensed active workers, sustaining 244 churches with 30,407 communicants. Additions to the mission churches have aggregated 3,400; lay workers number 1,404. Schools are also supported containing 20,000 pupils, with 167 candidates for the missions of the contributions from native churches have amounted to nearly \$40,000. The missions of the board are located in 15 different countries.

GAME OUT OF SEASON.

A Big Haul in a Refrigerating Ware-

house. New York, May 31.-Game Protector Robert Brown, Jr., accompanied by J. B. Burnham, of Forest and Stream, and a policeman swooped down on the old cold storage rooms of the New York Refrigerating Warehouse Company and captured a big haul of game birds. In all 1,073 birds were confiscated, including 717 quail, 172 ruffled grouse, 140 woodcock and 44 prairie chickens. Samples were taken to the Tombs court and the evidence was turned over to Protector Brown. No arrest was nade. According to the game law in force the fine is \$25 for each violation. If this were enforced the New York Refrigerating Warehouse company would be indebted to the state the round sum of \$27,000.

A PROPITABLE TALK

COMMENT, AND HE HAS SUCCEEDED.

(N. Y. Sun.)

Two days ago one of the most prominent professional men in New York published a letter so outspoken, so unusual as to cause extensive talk and awaken much comment. Yesterday I interviewed the gentleman as to the contents of the letter, and he fully confirmed it in every respect. He not only did this but be also mentioned a number of unusual cases which had come under his observation in which little less than a miracle had been performed.

So important has the entire subject become that I cetermined to investigate it to the bottom, and accordingly called upon Mr. Albert G. Eaves, the prominent costumer at No. 63 East Twelfth street, the gentleman mentioned in my interview with the doctor yesterday. Mr. Eaves has made quite a name. A complete knowledge of history, an appreciation of art and reliability are essential in his profession.

"Mr. Eaves," I said, "I learn that your wife has had a most unusual experience; are you willing to describe it?"

The gentleman thought's moment and an expression of pleasure passed over his face.
"When I think," he said, "of what my wife once passed through and the condition she is in today, I cannot but feel grafitude. Nearly three years ago she was at the point of ceath. You can understand how sick she was when I say she was totally blind and lay in a state of unconsciousness. Three doctors attended her and all agreed that her death was only a question of hours, perhaps minutes."

"May I ask what the doctors called her trouble?"

"Uraemia and puerperal convulsions, so you can invaries how hadir the meat seed.

"May I ask what the doctors called her trouble?"

"Uraemia and puerperal convulsions, so you can imagine how badly she must have been. At last one doctor (it was Dr. R. A. Gunni said that as she was still able to swallow one more attempt might be made, and a medicine was accordingly given her. She seemed to improve at once; in a few days her sight was restored. I have had a long, long sieep, she said, upon recovering consciousness, and I am reploided to say that she was restored to perfect health wholly through the use of Warner's Safe Cure, which was the remedy we administered when she was past all consciousness."

I looked at Mr. Eaves as he said this. His face was beaming with satisfaction. He continued:

"The physicians told us after my wife."

I looked at Mr. Eaves as he said this. His face was beaming with satisfaction. He continued:

"The physicians told us, after my wife's recovery, that she could never endure child-birth, and yet we have a fine boy nearly a year old, and do not know what sickness is. I attribute it to the wonderful power of Warner's Safe Cure. Why, my sister, who resides in Virginia, was, a while ago, affleted precisely as my wife had been. I at once advised her to use this same great remedy it cured her promptly."

"You find that it is especially adapted for women, do you?" I inquired.

"By no meaus. I have known it to be wonderful in its power in the case of gentlemen to whom I have recommended it. I speak from my experience entirely, and you should not be surprised that I am so firm a believer in this discovery, which has done so much for me."

I was not surprised. I saw by every word, by every look, that Mr. Eaves meant all he said. I had ample confirmation of Dr. Gunn's letter and interview, and I do not wonder that people who have seen such things, who have watched their dearost friends go down into the dark valley and be brought back into the light, should be both suchusiastic and grateful. I, myself, caught the spirit, and I shall be gladif the investigations I have made prove of profit to those who may read them.

short time ago and sent to Dr. Kilmor & Co.,
with his letter and package of graved he
speaks about, which was disactived and
expelled after using a few bottles of
Swamp-Root. The following is Mr.
Cradick's unsolicited account of his distresing and painful case.
Gosport, Ind., Jan. 15, 1922.
Dr. Kilmer & Co., Bischampton, R. Y.

I do not know how to express my hearifelt thanks to you for the benefit I have received from using your Swamp Root Kidney
Liver and Bladder Cure. I am now exyears old, and have suffered almost death
for about three years. I had given up to
die, but as I profess to be a Christian men
and a great believer in the prayer of the
righteous, I prayed that God wou'd send
something that would prolong my life, and
I feel thankful to him and you for the means
that was sent. May God spare your life
many years yet that you may hear the grast
good that your medicine is doing. On the
20th day of August, 1891, Mr. Frank Lawson
your druggist at Spencer persuaded me to
take a bottle on trial. I have taken a few
bottles and it has brought out of my bladder lime or gravel, which I have saved in
quantity the size of a goose egg and I now
feel like a new man. May God blew you
and your medicine.

I remain your humble servant,

SECOND LETTER.

DEAR DOCTOR—I take great pleasure in answering your letter which I received to-day. You say "you would like to publish my testimonal in your Guide to Health for a while." I have no objections at all, for I want to do all in my power for afflicted humanity. I send by this mail a lot of the Gravel (about one-half of which I saved) that the Swamp-Root dissolved and expelled.

Two years ago last September I was taken with pain almost all over me, my hear and back, my legs and feet became cold, would get sick at my stomach and vomit often, suffering a great deal from chills, and at those these were so severe that I thought I would freen to death. My whole constitution was run down and I fest bad all over. The condition of my urling was not so had through the day, but during the night, at times, I had to get up every hour, and often every half hour.

I suffered terribly from burning and scalding sensation. Would urinate sometime a gallon a night; then it seemed my kitheys and back would kill me. I had been troutled with constipation for many years, but since using your Swamp-Root have been better than for a long time. The moritime has heiped my appetite wonderfully and it seems as though I could not eat enough.

I live about six miles in the country from Gosport. I was born and raised here, and have been a member of the M. E. Church for forty-two years.
